

Features

- ◆ Made of great quality stainless steel for great durability, corrosion resistance and hygiene.
- ◆ This model of egg washer is a combination of three single-row egg washers with a capacity of 30,000 eggs/hour.
- ◆ It can satisfy any egg cleaning and drying requirements well.
- ◆ Includes egg accumulating, candling, orientating, sanitizing, washing, drying functions all in one machine, it can also include the optional automatic vacuum loader, optional egg printer and optional manual collection conveyor (UV included).
- ◆ Eggs can be automatically loaded onto the roller of the egg accumulator via the Zenyer 615 automatic vacuum loader, 30 eggs at a time.
- ◆ The eggs are then transported to the 6-row candling section. You can check for any cracked, dirty or otherwise unqualified eggs through the LED light by sight and manually take them out. There is also a candling cover and mirror for improved candling results.
- ◆ After the candling booth, the orientator will direct 6 lines of eggs into 3 single lines and transport them to the 3 single-row egg washers.
- ◆ The proportional doser sprays sanitizer or detergent (customer provides chemicals) onto eggs automatically for food security purpose.
- ◆ The eggs will be cleaned by brushes and warm water (a water heater isn't included in the price, consult one of our representatives if needed).
- ◆ Water on the eggs will be swept off by the brushes while the eggs themselves will be dried by the drying system. The drying result can reach up to 95~99% depending on the environmental humidity.
- ◆ Can be attached with the ZENYER 109 egg grader to form the ZENYER 304A egg processing line with a capacity of 30,000 eggs/hour.

204A EGG WASHER

Model	ZYX-JS3-3-(P)
Product code	204A
Capacity	30,000 eggs/hour
Power	32.75 KW, 50HZ
Voltage*	380V-415V, 3-phase
Dimension (L*W*H)	12.8*6.0*2 M
Net weight	2170 kg
Gross weight	3100 kg
Function	Accumulator & candling, sanitizer sprayer, brush washing & drying, optional printer, vacuum egg lifter and manual collection conveyor.
