

203A EGG WASHER

Features

- ◆ Made of high quality stainless steel for great durability, corrosion resistance and hygiene.
- ◆ This model of egg washer is a combination of two single-row egg washers with a total capacity of 20,000 eggs/hour.
- ◆ It can satisfy any egg cleaning and drying requirements well.
- ◆ Includes egg accumulating, candling, orientating, sanitizing, washing, drying functions all in one machine, it can also come with an optional vacuum egg lifter, optional egg printer and optional manual collection conveyor.
- ◆ Eggs can be manually loaded onto accumulator by using the 602 vacuum egg lifter, 30 eggs at a time.
- ◆ The eggs are then transported to the 6-row candling section. You can check for cracked, dirty or otherwise unqualified eggs through the LED light by sight, and manually take them out. There is also a candling cover and a mirror for better candling results.
- ◆ After the candling booth, the orientator will direct 6 lines of eggs into two lines and transport them to the two single-row egg washers.
- ◆ The proportional doser sprays sanitizer or detergent (customer provides chemicals) onto eggs automatically for food security purpose.
- ◆ The eggs will be cleaned by brushes and warm water (the price doesn't include a water heater, consult our representatives if needed).
- ◆ Water on the eggs will be swept off by the brushes while the eggs themselves are dried by the drying system. The drying result can reach up to 95%-99% depending on the environmental humidity.
- ◆ Can be connected with a ZENYER 107 egg grader to assemble the ZENYER 303A egg processing line with a capacity of 20,000 eggs/hour.

Model	ZYX-JS2-3-(P)
Product code	203A
Capacity	20,000 eggs/hour
Power	21.46 KW, 50HZ
Voltage*	380V-415V, 3-phase
Dimension (L*W*H)	12.16*5.56*2.0 M
Net weight	1830 kg
Gross weight	2610 kg
Function	Accumulator & candling, sanitizer sprayer brush washing & drying, optional egg printer, vacuum egg lifter and manual collection conveyor.
