

## Features

- ◆ Made of stainless steel for great durability and hygiene .
- ◆ The ZENYER 500 egg centrifuge is a semi-automatic centrifugal egg breaker, it produces fresh whole egg liquid with capacity of 20,000 eggs/hour.
- ◆ After filling the machine with eggs, it breaks the eggs and the fresh egg liquid is transported into a placed container. Meanwhile, the eggshells are crushed, greatly reducing their volume.
- ◆ An inner sieve made of a perforated welded plate ensures efficient filtering of centrifuged egg liquid. The machine retrieves the egg liquid from the crushed shells, therefore minimizing the amount of wasted product.
- ◆ Zenyer 500 egg centrifuge is suitable for egg farmers and other egg processing industries.
- ◆ Washing eggs before breaking is essential for meeting food safety standards and ensuring quality, the 500 centrifugal egg breaker also can be paired with the ZENYER 202B egg washer to assemble the ZENYER 300C egg processing line with capacity of 10,000 eggs/hour.

Commodity	Egg centrifuge
Product code	500
Model	ZYD-L-80
Capacity	20,000 eggs/hour
Material	Stainless steel
Power	5.5KW
Voltage*	380V~415V,50HZ, 3-phase
Dimension (L*W*H)	1.8*0.68*1.15M
Net weight	140kg
Gross weight	200kg
Function	Centrifugal egg breaking
